

DECISION HOOT

Turning Business Signals into Better Decisions

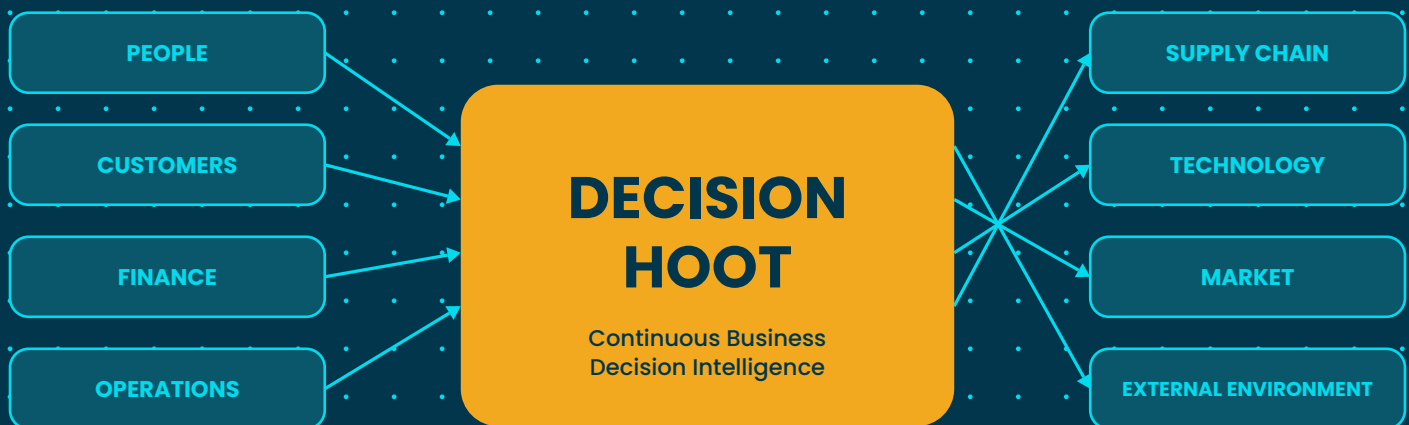

YOUR BUSINESS GENERATES SIGNALS EVERY DAY.

BUT WHAT SHOULD YOU DO NEXT?

Sales change. Costs move. People leave. Customers behave differently. Suppliers become unreliable. Inventory builds. Capacity gets constrained. Technology changes. Risks emerge.

The challenge is rarely a lack of information.

IT'S KNOWING WHAT IT MEANS — AND WHAT TO DO ABOUT IT.

CONTINUOUS · ORGANISATION-WIDE · ALWAYS LOOKING

ONE BUSINESS. MULTIPLE SIGNALS. BETTER DECISIONS.

Signals in. Decisions out. Outcomes measured.

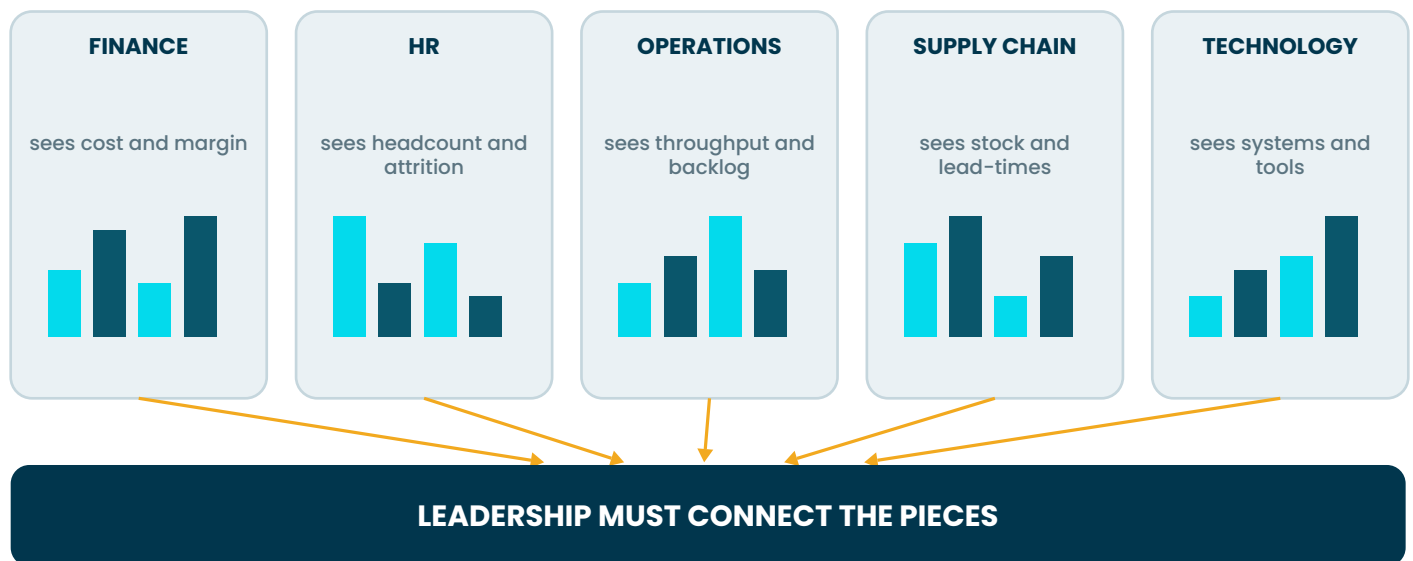

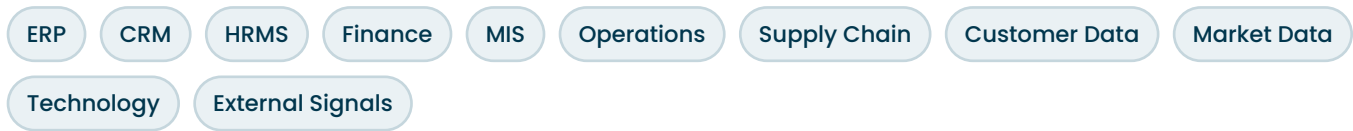

Continuous Business Decision Intelligence for Indian startups, SMEs and growing businesses.

[.decisionhoot.in.](https://decisionhoot.in)

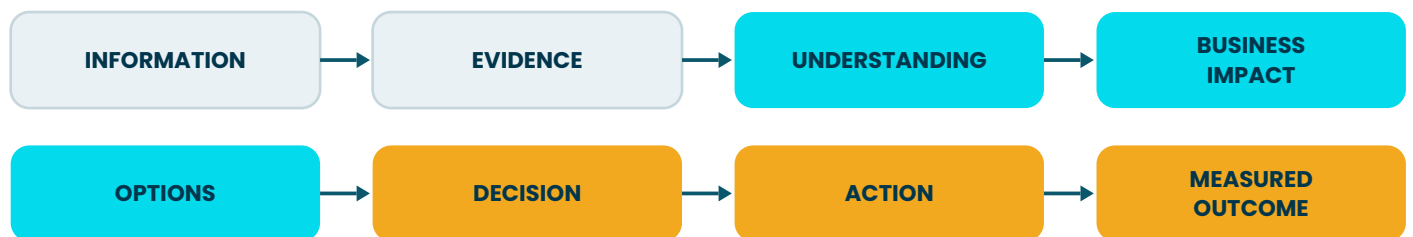

YOUR BUSINESS ALREADY HAS DATA. SO WHY ARE IMPORTANT DECISIONS STILL DIFFICULT?

WHAT YOUR BUSINESS ALREADY HAS

THE DECISION GAP

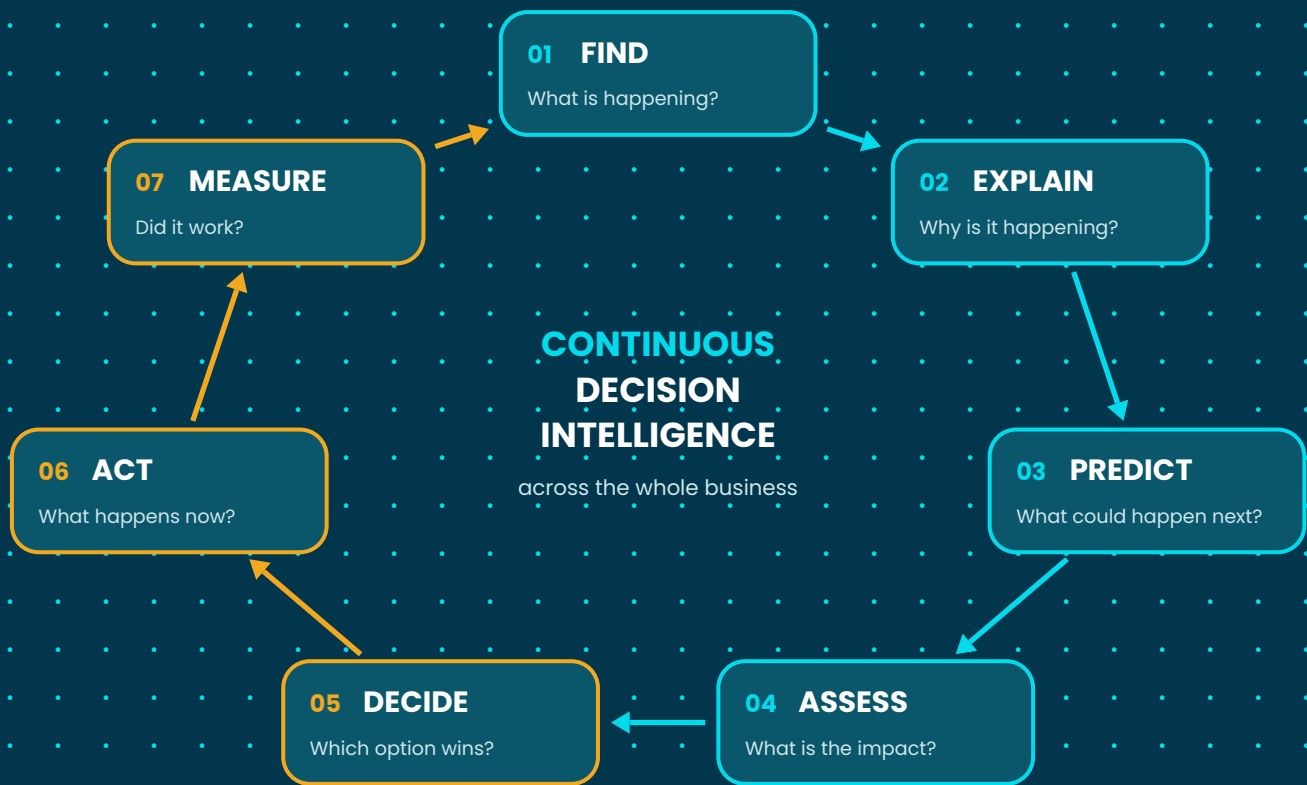

Decision Hoot connects the pieces.

Most businesses stop at information. Decision Hoot works continuously across the organisation and its external environment to connect the information and carry it through to decisions.

Data is not the product.
Interpretation and decision support
are the product.

FROM “WHAT HAPPENED?” TO “WHAT SHOULD WE DO NEXT?”

Every measured outcome becomes a signal for the next decision.

DECISION INTELLIGENCE

THE HERO IS THE BUSINESS DECISION.

AI, analytics, automation and research are enabling capabilities — never the point.

ONE BUSINESS. MULTIPLE SIGNALS.

BETTER DECISIONS.

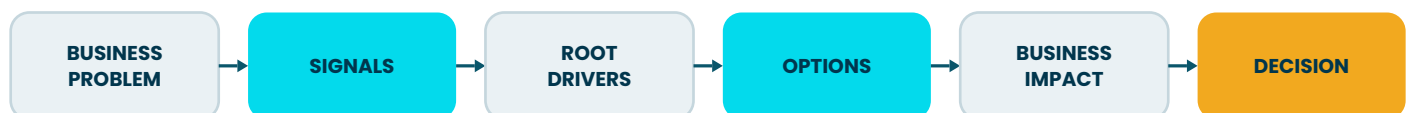

WHERE DECISION HOOT HELPS MANAGEMENT — EXAMPLES

- Hire or automate?
- Reskill, recruit or redesign?
- Reduce inventory or protect service levels?
- Change supplier or absorb higher inventory?
- Improve capacity or expand?
- Make, buy, outsource or partner?
- Invest in technology now or wait?
- Which process should be automated?
- Where are we losing productivity?
- What could threaten our growth?
- Act now or monitor?

Technology follows the business problem.
Not the other way around.

HOW WE THINK — ILLUSTRATIVE

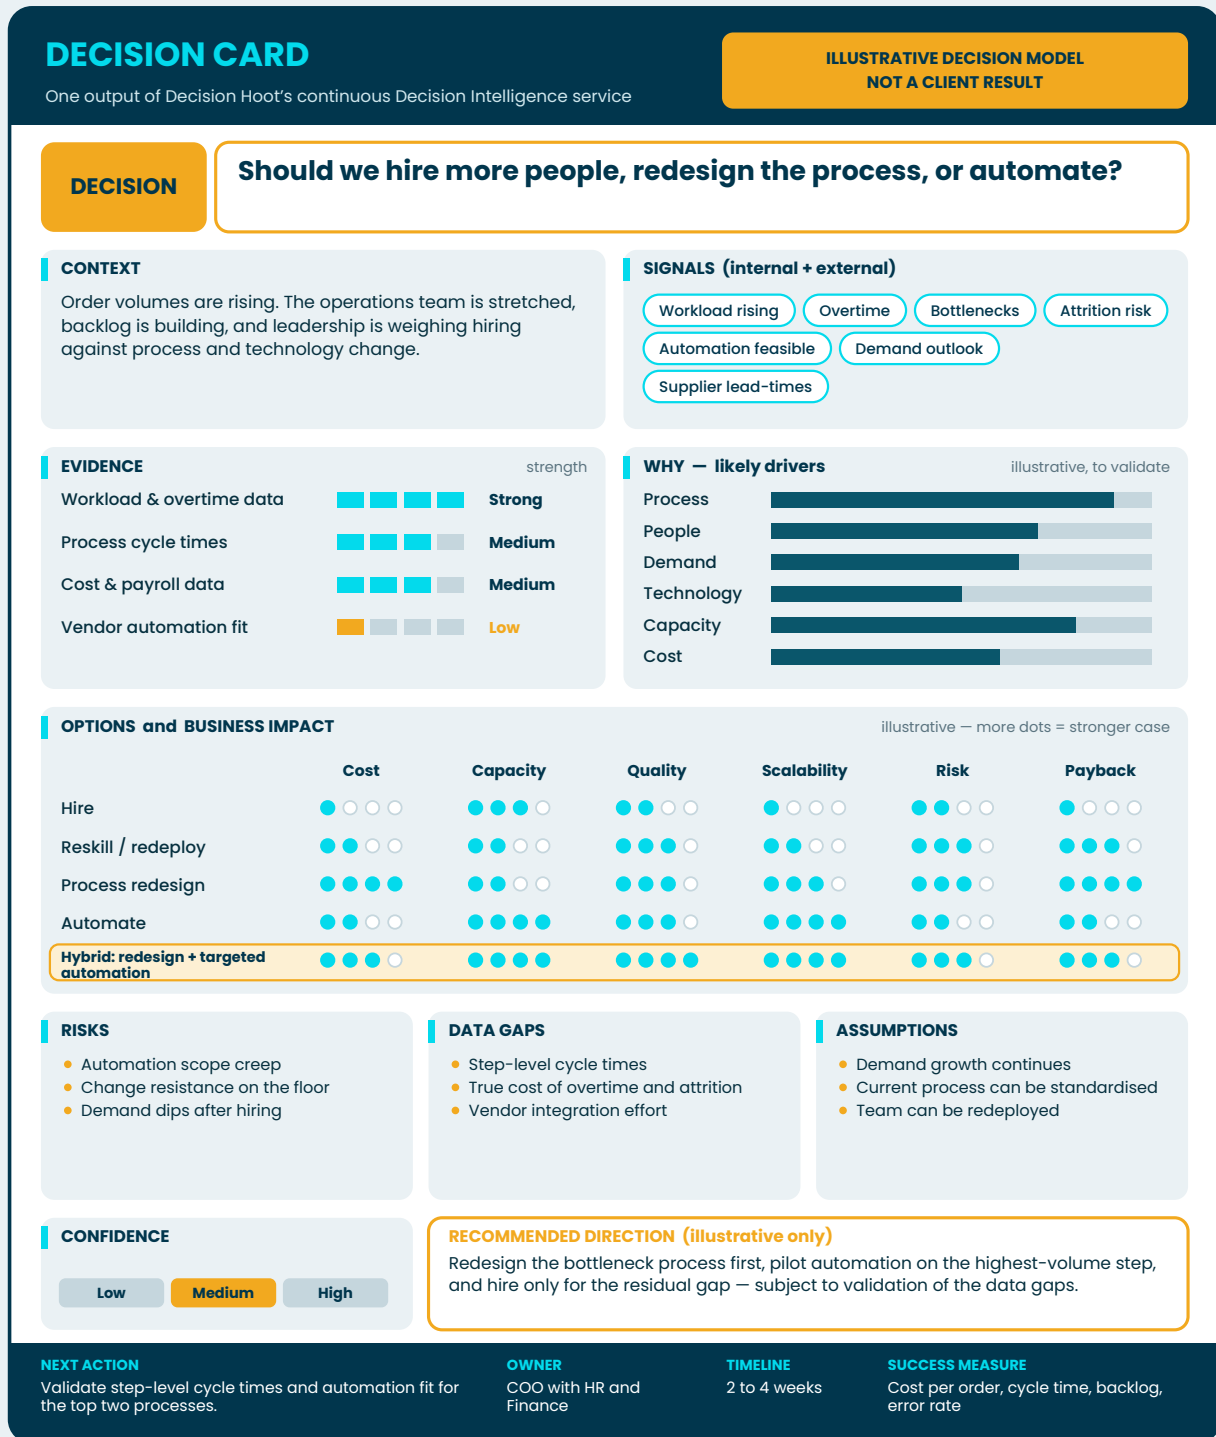

Example: capacity pressure shows up as workload and backlog signals, traced to process, people and demand drivers, compared as hire, redesign or automate, then decided on business impact.

Decision Hoot continuously monitors meaningful business signals, emerging risks, opportunities and situations requiring management attention across the organisation.

THE DECISION CARD: ONE IMPORTANT OUTPUT.

ONE PAGE. ONE DECISION. EVERY ASSUMPTION VISIBLE.

A tangible output of Decision Hoot's continuous Decision Intelligence service.

A Decision Card converts a complex business question into a structured decision view — so leadership can see the evidence, alternatives, impact, uncertainty and next action in one place. Decision Cards are one way Decision Hoot turns complex business intelligence into management-ready decisions.

The Decision Card is not a dashboard. It is a decision instrument.

Decision Cards turn complex business intelligence into actionable management decisions.

START WITH YOUR BUSINESS.

No presentation. No need to pick a single problem. Tell us about your organisation and the parts of the business you want Decision Hoot to look across — the first form is intentionally short.

1 INTEREST FORM

A short form: your organisation and the business areas that interest you.

2 INITIAL DISCUSSION

We understand your business and priorities.

3 BUSINESS ASSESSMENT

We identify the relevant signals, data and information gaps.

4 30-DAY FREE PILOT

Qualifying organisations experience how Decision Hoot works and identify initial value.

5 VALUE REVIEW

Together we review what was found and whether to continue as a partnership.

THE COMMERCIAL JOURNEY

**30 DAYS
EXPERIENCE**

Free pilot

**6 MONTHS
PROVE VALUE**

Paid partnership

**ANNUAL
EMBED & SCALE**

Renewal

The 30-Day Free Pilot lets qualifying organisations experience how Decision Hoot works and identify initial value. It is the start of a partnership — not a promise of savings or transformation.
